Dear Sen. Arlen Specter:

Enclosed is a copy of my book entitled America's Judicial Meltdown. Also, enclosed is a copy of the letter I submitted to Supreme Court Chief Justice Roberts.

Upon reading the book, you will note that it is both self published and self-distributed. Under certain prevailing circumstances an author may be forced to self-publish and self-distribute books regarding a controversial subject, such as the obstruction of justice by Federal Circuit judges. It is apparent that said publishers and distributors are intimidated and don't possess the courage to expose the unethical behavior of Federal Court judges, for fear of jeopardizing the success of their business. Therefore, the only way the cited obstruction of justice can be brought to light, is through a self-published and self-distributed book. Also, regarding book reviewers, what book reviewer would dare provide a review of my book, without being intimidated by our terrorizing judicial system.

If a judge's obstruction of justice is continually suppressed, our judicial system will continually disintegrate to a point of being completely worthless. A democracy cannot flourish in an environment wherein the obstruction of justice by Federal Circuit judges is continually suppressed.

Today there is much concern over Al Qaeda terrorists, without due consideration given to unethical judges who terrorize everyone with their conspicuously outrageous decisions.

As I mentioned to Chief Justice John Roberts, I hope that leadership effort, by both the Supreme Court and the U.S. Senate Judiciary Committee, can be provided to restore integrity to the United States judicial system.

Respectfully submitted,
